

RKDOORSYSTEMS

Let's make an entrance

Premium door profile

The Premium profile offers an oversized 84mm deep insulated panel construction with overlay panel internally and flush external face with either a flush or classic design frame. This door offers a contemporary door design combined with ultra-high performance and very low U values to allow inclusion in any modern residential or non-fire rated commercial applications.

Performance ratings

- Water tightness: **Class 5A**
- Wind load resistance: **Class C2**
- Air permeability: **Class 4**
- Thermal transmittance: **0.67W/m² K**
- Sound insulation: **44dB**
- Security Certification: **Secure by Design / PAS 24:2022 / RC2 / RC3**

Features & benefits

- ✓ German 75mm deep insulated frame with mechanical & glued corners for high performance construction and life expectancy
